

"I have a life today because of Greenlight cover"

### Ivan Duvenage's story is truly an inspiring one.

In 1998 the mine where Ivan Duvenage had worked for years, closed down and he was unexpectedly retrenched. He decided to take his savings and start a small business.

"I knew that with hard work and dedication my business would do well, and it did. Life was good. My wife, on the other hand, was worried about my safety, because I spent a lot of time on the road. She begged me to get some kind of life and disability cover. But like most people, I really didn't think I needed it."

Wisely, Ivan's wife went ahead and contacted an Old Mutual Personal Financial Adviser, who put together a comprehensive risk cover plan for the Duvenages. Just nine months later Ivan was involved in a serious motorcycle accident which left him paralysed from the waist down.

"Fortunately, my Greenlight cover from Old Mutual paid out R3 019 300, which saved our lives. It helped me and my family get through those really tough times."

Ivan explains, "I have a life today because of Greenlight cover. They paid out, with no excuses."

The payout Ivan received also meant that he was able to cover all his immediate medical costs, pay all his creditors, modify his car and receive important medical rehabilitation to ensure that he would enjoy the best possible quality of life in the future. Furthermore he was able to buy into a new business.

"Today, I own a successful small business, I am able to provide a good quality of life for my wife and sons. As a man, and a father, that's really important to me."

"I was devastated. I couldn't work anymore, I lost my business and I had no monthly income. Bills were piling up; my hospital bills alone came to more than R1.5 million."

For most people this would mean the end. But not for Ivan.

"You never know what life is going to throw your way. I'm just so grateful we got Greenlight cover."
